Duckhorn is a black and white Gypsy Vanner gelding, by Charlie out of Feathers. He has incredible movement and a huge stride. A fast learner, and great temperament, he would excel at any discipline, but would make an exceptional Dressage horse. With a huge tail and long forelock he is definitely a show stopper. He has a refined bone structure, and has more of a sporthorse build. Duckhorn has been under saddle for over a year, is comfortable on trails, and has even started jumping. At his first show, he won both Western and English W/T classes against other aged horses.
